Addendum to Journal  
Office of Legislative Counsel  
Tuesday - 28 February 1967

Page 2

25X1

[redacted] Attempted during the day again to meet with Representative Lipscomb but was unable to do so. He called early in the evening noting my attempts to get with him but did not set a time for meeting.

25X1

[redacted] Met with Mr. Hebert Roback, Staff Administrator, House Government Operations Subcommittee on Military Operations, and provided him with a selection of background papers and news clippings on the NSA matter. Mr. Roback thanked me for coming by and indicated he had called to suggest we provide him with this material because of the many opportunities he has, particularly within the Committee, to respond first hand to questions. As he will be out of the city the later part of the week, I plan to meet with him again early during the coming week.

25X1

[redacted] Received a call from Mr. Peter Gerardi, Technical Consultant, House Science and Astronautics Committee. On meeting with him, Mr. Gerardi requested possible scheduling of 10:00 a.m., March 17, for briefing or updating the Chairman and Subcommittee Chairmen of the House Science and Astronautics Committee on the subject of Soviet space activities. After checking with the Office of DD/S&T, tentative confirmation was provided. It is expected that the following Subcommittee Chairmen may be in attendance: Miller, Teague, Karth, Hechler, Daddario, Fulton, Mosher, and Pelly.

25X1

[redacted] Met with Representative William Bates and reviewed with him various news reports concerning the NSA matter. Mr. Bates was particularly interested in the release of the former presidents of NSA. Mr. Bates requested time to review and digest the material he has collected on this matter. In all probability, he will then desire to meet again for possible drafting of personal letters from him to the editors of his two largest circulation newspapers.

25X1

[redacted] Talked briefly with Representative Randall as a follow up to my meeting with him of last week. Mr. Randall advised that since the Director will be appearing before the full Committee on Wednesday, that there is no need for further discussion at this time.
